design componibile per la tua casa

ITA | GB

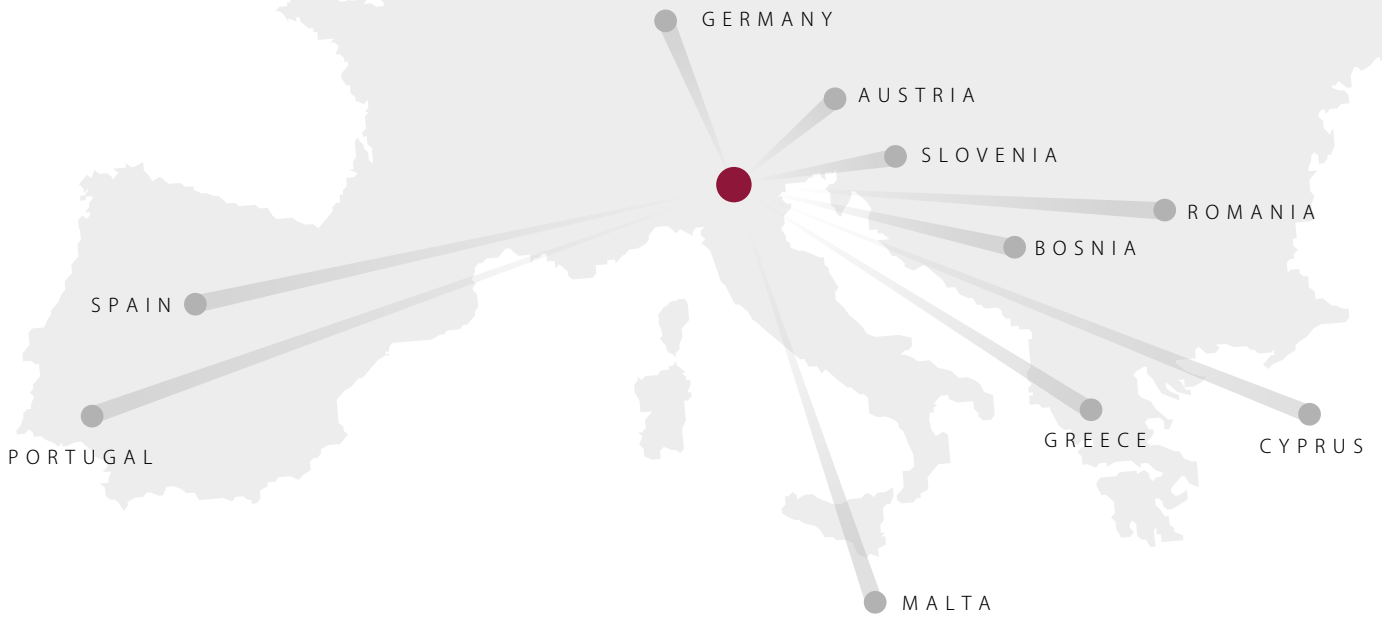

MODULARREDO

**Modularredo, la soluzione d'arredo
che ti trasforma in designer.
Moduli componibili, materiali lineari,
puliti, eleganti pronti per essere
disposti secondo il gusto, l'estro,
la comodità di chi li acquista.
Strumenti per definire il tuo spazio
e il tuo stile, con originalità e praticità.**

Modularredo, the furnishing solution
that turns you into a designer.
Modular modules, linear, clean,
elegant materials ready to be arranged
according to taste, inspiration, the
convenience of those who buy them.
Tools to define your space and your
style, with originality and practicality.

SANITEC

DESIGN E TECNOLOGIA

DESIGN AND TECHNOLOGY

Sanitec è la tecnologia al servizio dell'arredo: dal 1988 produciamo elementi e complementi per l'arredo della casa, lavorando materie prime di qualità certificata. Effettuiamo con rigoroso controllo al nostro interno tutte le fasi della lavorazione, dal rivestimento al taglio fino alla foratura, consegnando al nostro cliente un prodotto pronto per essere montato.

Sanitec is technology at the service of furnishing: since 1988 we have been producing elements and accessories for home furnishing, working with certified quality raw materials. We carry out all stages of processing, from coating to cutting to drilling, with rigorous internal control, and deliver to our customer a ready to be assembled product.

IL NOSTRO IMPEGNO PER IL RISPETTO È LA TUTELA DELL'AMBIENTE È UN OBIETTIVO CONCRETO.

Il rispetto e la tutela dell'ambiente sono da sempre prerogativa essenziale di Sanitec srl. Preparazione, dedizione e tenacia hanno permesso di realizzare gamme di prodotti ecocompatibili che durante il loro ciclo di vita garantiscono la massima affidabilità nel completo rispetto dell'ambiente. L'attenzione ecologica di Sanitec si traduce, oltre che nei prodotti, anche attraverso processi e attività pianificate all'interno della nostra politica ambientale.

Recupero e riciclo dei materiali di scarto, riduzione degli imballaggi per garantire la minore quantità possibile di materiale in eccesso, riciclaggio di carta, cartone e plastica, sono solo alcuni esempi pratici dell'operato Sanitec per il rispetto ambientale. I continui controlli ambientali sia interni che esterni consentono di tener fede agli ambiziosi obiettivi aziendali nonché alle certificazioni.

La **Politica ambientale di Sanitec** srl si concretizza nei seguenti principi gestionali:

- a. rispetto integrale della legislazione vigente (inclusa ogni altra prescrizione ambientale sottoscritta dall'azienda), della normativa di riferimento e delle procedure aziendali in materia di protezione ambientale;
- b. gestione delle attività produttive in modo da ridurre gli impatti ambientali ad essa direttamente connessi, con particolare attenzione alla gestione dei rifiuti prodotti e ai rischi legati all'utilizzo di sostanze inquinanti;
- c. utilizzo di mezzi e materiali che presentino caratteristiche conformi alla legislazione ambientale vigente, bassi consumi, basso impatto ambientale, riciclabilità;
- d. diffusione all'interno dell'azienda, mediante una costante azione di sensibilizzazione, di una cultura volta alla messa in atto delle forme di comportamento corrette sotto il profilo della tutela dell'ambiente e del territorio;
- e. sviluppo, mediante la formazione e l'informazione, delle competenze professionali e dell'impegno ad operare nel rispetto delle procedure di prevenzione e protezione;
- f. sviluppo della consapevolezza generalizzata che la responsabilità della tutela ambientale è affidata a tutti i lavoratori, ai vari livelli aziendali, ciascuno secondo le proprie competenze.

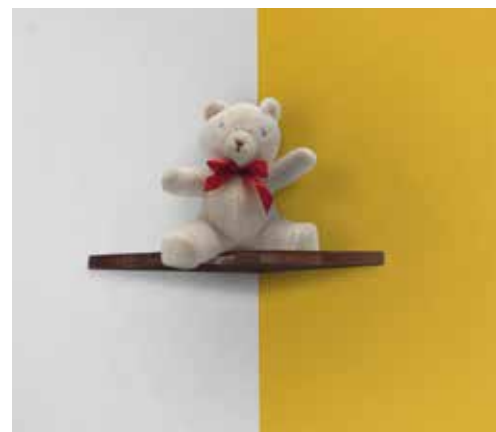

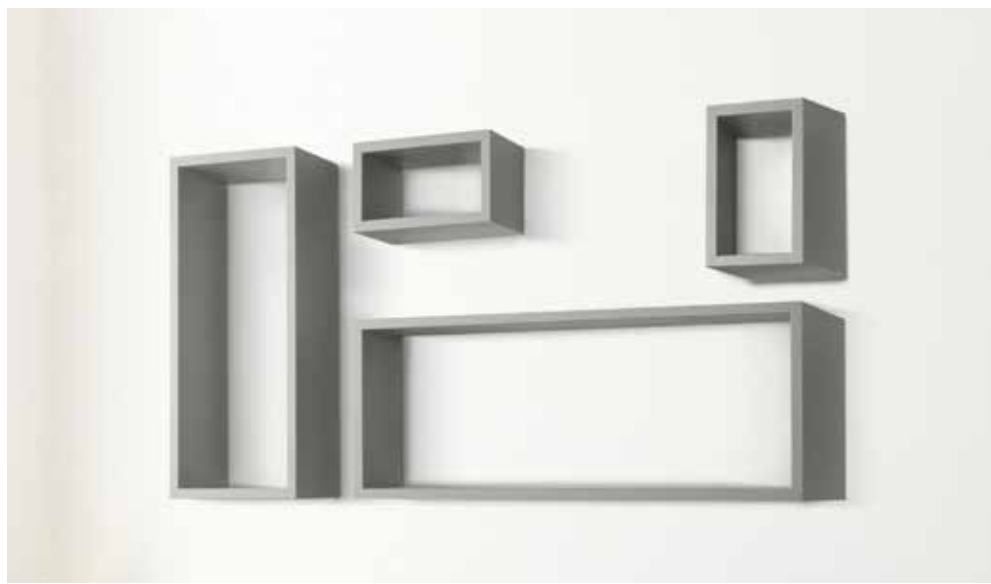

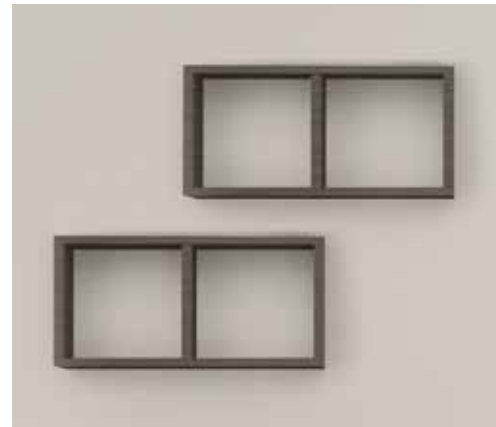

OUR COMMITMENT TO RESPECT AND PROTECT THE ENVIRONMENT IS A CONCRETE OBJECTIVE.

Sanitec srl has always been committed to respecting and protecting the environment. Preparation, dedication and tenacity have made it possible to create a range of eco-compatible products that during their life cycle guarantee maximum reliability and complete respect for the environment. Sanitec's environmental awareness is reflected not only in its products, but also in the processes and activities planned as part of our environmental policy.

Recycling and recovering waste materials, reduction of packaging to ensure the smallest possible amount of excess material, recycling of paper, cardboard and plastic, these are just a few practical examples of Sanitec's efforts to respect the environment. Ongoing internal and external environmental controls enable us to meet our ambitious business objectives and certifications.

Sanitec srl's **environmental policy** is embodied in the following management principles:

- a. full compliance with the current legislation (including any other environmental regulations signed by the company), the reference legislation and with the company's environmental protection procedures;
- b. managing production activities to reduce the environmental impacts directly connected with them, paying particular attention to waste management and the risks associated with the use of pollutants;
- c. using vehicles and materials that comply with current environmental legislation, low consumption, low environmental impact, recyclability;
- d. promoting within the company a culture aimed at implementing correct forms of behaviour in terms of environmental and territorial protection, by constantly raising awareness;
- e. developing professional skills and a commitment to operate in compliance with prevention and protection procedures through training and information;
- f. developing the general awareness that all workers, at all levels within the company, are responsible for the protection of the environment, each according to their own skills.

SCAFFALE 3 RIPIANI

La particolarità è il sistema di appoggio dei ripiani: non sono sorretti da una vite come per gli scaffali che si trovano oggi sul mercato ma, grazie alla tecnologia da noi utilizzata per il taglio laser del metallo, abbiamo realizzato gli incastrici nella struttura dunque i ripiani poggiano sulla stessa aumentando la portata e la sicurezza del prodotto.

3 TIER SHELF

The peculiarity is the support system of the tiers: they are not supported by a screw as for the shelves that are found on the market today. In fact, thanks to the technology we use for the laser cutting of the metal, we have created the joints inside the structure therefore the tiers rest on it, increasing the product's capacity and safety.
